WARNING!

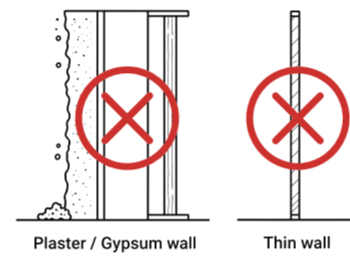

Screws and wall plugs for solid walls are included. Assess the suitability of your wall to ensure it will withstand the forces generated. If mounting to a different wall type, you must use screws and plugs suitable for your specific wall structure and the intended load. If you are uncertain, seek professional advice. Read and follow each step of the instructions carefully.

Check for and avoid hidden electrical wires or plumbing behind the wall before drilling.

Note: The package includes only the listed hardware; tools shown in the tutorial (such as a power drill, pencil, and hammer) are not included and must be prepared by yourself.

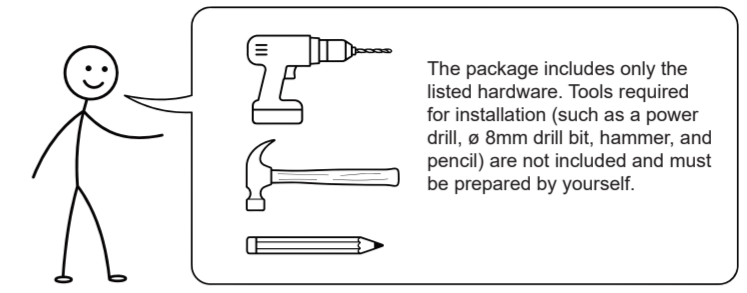

MAX LOAD: The maximum total load capacity is 11.34KG (25 lbs) when properly mounted on a solid wall. Distribute weight evenly. Do not overload.

SUPPORT: Missing parts or installation issues? Please contact us at Arcberg-europe@hotmail.com before returning the item.

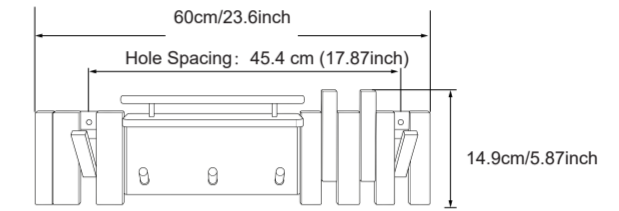

DO NOT mount on Plaster / Gypsum wall DO NOT mount on Thin wall
